Initial phone contact made at 2:25 pm on Monday, August 16, 2021. I spoke with an unnamed assistant who told me Kimberley McKiernan, registrar, was out on vacation all week and would return my call on Monday, **August 23**.

Kimberley McKiernan, registrar, returned my phone call the next day, Tuesday, August 17, at 11:06 am. When I questioned about vacation, she said she had simply stopped by the office. She said in her job there was always something to do, which I thought I heard frustration in her voice. She said for me to email her the questions and when she returned from vacation **on August 26th** she would look at them. I asked if I could contact her again when she returned from vacation to set up a meeting. The okay I got as an answer did not feel definitive. But I will call again.
